

IC5658
HEMERA EN

Shutter Clip

APPLICATIONS

The shutter clip is a component of the ACOME HEMERA Industry solution.
It accompanies the IC5655 sleeve during installation by allowing for an extraction to be made using 2 openings in the cable.
It ensures the waterproofing at the fiber cut-off point.

GENERAL CHARACTERISTICS

GENERAL

- Protection rating: IP68 (immersion)
- Max. opening length on the cable: 80 to 100mm
- UV and weather protection
- For cable diameter 9.5-12 mm

Characteristics	Values
Waterproofing	IP68 – Complies with NF 61300-2-23 Protection against dust and water jets in all directions
Impact resistance	IK07 – Complies with NF EN 61300-2-12
Resistance to solar radiation	Complies with NF EN ISO 179-2 [17]
Temperatures	Transport and storage -25°C / +55°C
	Installation: -5°C / +45°C
	Operation -40°C / +65°C
